TO WHOM IT MAY CONCERN

The Board of Management of Lisheen National School wish to express our sincere thanks to all in Masterkabin for the service provided in supplying our school with a PortaCabin Classroom.

From our initial contact with your company we have had efficient, polite and friendly service from top management all the way through to sales and construction staff.

We have been delighted with your service in all aspects of the business. Our portacabin facility is perfect; comfortable and functional, for the service we require as recommended by your company having listened and assessed our needs. The service you provided from the sales staff listening and understanding what we were trying to do, the administration of actually planning the location and timing of supplying the building, and finally the most efficient erection and completing the serviceability of the facility has been more than a pleasant experience.

We thank you all most sincerely, and wish you every success in your business in the future.

Patrick Leonard,
Chairperson,
Board of Management.
